

Curriculum ICT Leadership Briefing Learning with Apple

Monday 15th October
Free Twilight 4pm - 6pm
The Woodroffe School, Lyme Regis

The iPad revolution continues to gain momentum in schools, academies and colleges throughout the UK. Every day new apps arrive that allow us to embrace creativity and innovate teaching and learning. Engaging, intuitive and uniquely immersive, the iPad and iPod Touch are valuable to teachers and learners of all ages, right across the curriculum.

Join us for this exciting free twilight session with Joe Moretti, an Apple Distinguished Educator. We will experience how innovative educators are using mobile technology to deliver interesting and engaging lessons.

There will be an opportunity to experience iPad hands-on including some of the latest apps. Hosted by The Woodroffe School, Lyme Regis and the Dorset Apple Regional Training Centre.

Learning Outcome 1:

Discover how mobile technology can be deployed in school delivering engaging anywhere, anytime, personalised learning platforms

Learning Outcome 2:

Learn how the latest ICT technology supports creative challenge based learning, explore new ways to research, create and share

Learning Outcome 3:

Get hands on experience with some of the latest educational apps and explore their uses within class
